BSc. IN GEOLOGICAL ENGINEERING

PROFESSIONAL PROFILE

I have a Bachelor's degree in Geological Engineering. I got a good education at university and have a strong interest in prospecting, exploration, and managing hydrogeological, mining, hydrocarbon, and geotechnical projects. I am good at doing fieldwork, laboratory tests, and using technology for geology applications.

Skills and Abilities

- ✓ Troubleshooting Abilities
- ✓ Team Collaboration
- ✓ Emotional Intelligence
- ✓ Critical Thinking Aptitude
- ✓ Analytical Proficiency
- ✓ Effective Communication Skills

Languages Spoken

Spanish: Main Language
English: Intermediate Proficiency

Driver's License

Vehicle Categories: A - I (Professional)
Motorized Vehicles: Categories B II - C

PROFESSIONAL EXPERIENCE

TRAINEE SIG Jan 2023 — Nov 2023
Datablitz Corp — Lima

I worked on geoprocessing and data extraction tasks for digital elevation models (DEM). My job includes the full process, starting with getting and processing DEM images from different regions in Peru. This means I use geostatistical methods and programming to create morphometric parameters for alluvial cones, small watersheds, and larger watersheds. These parameters are important for advanced computational models, like deep learning algorithms, to predict different dynamic natural events.

TRAINEE SIG Feb 2022 — Dec 2022
Private — Lima

I offer my services independently through projects and specific jobs on platforms like Fiverr, Upwork, and my professional network. I do tasks like digitizing maps in QGIS, creating cadastral maps, extracting data, and making thematic and specialized maps. I also work as a Data Analytics assistant in different areas.

Some of my achievements include:

- I have skills in using GIS, AutoCAD, and Python software.
- I create clear criteria for topographic surveys and field validations to make sure the data is accurate and to carefully find any problems or differences in the existing data.
- I also focus on delivering quality work to improve the client's projects.

EDUCATION

General English Nov 2023 — May 2024
Wattle Colleague — Melbourne Australia

Bachelor in Geological Engineering Sep 2013 — Nov. 2021
National University of San Antonio Abad del Cusco — Cusco

TRAINING COURSES

- Alluvial aquifer modelling and water sustainability management, GIDAHATARI — March 2023
- Power BI, ZEGEL IPAE — Marzo 2022
- Mining Geology, TEPSUP — March 2022

IT TRAININGS

Office 365	advanced	Python	basic
ArcGIS	intermediate	SQL	intermediate
QGIS	intermediate	Power BI	intermediate
AutoCAD	basic	HTML & CSS	intermediate
Leapfrog Geo	basic	Javascript	basic
Adobe Illustrator	intermediate	Rstudio	basic
